## INFORMATION PROCESSING (IP) REVIEW OF EXISTING DATA QUESTIONS

Student Name:	ID: o	Date:	
School:	Grade:	D.O.B.:	

Pose these questions to the assessment team at the review of existing data meeting. Note the length of time the student has had problem(s), and situations in which problem(s) are reported.		
1.	How does the student learn? (copying, rehearsing, using fingers, auditory and visual rehearsing, etc.)	
2.	Is the student's method of learning, identified in question #1 used in all subject areas?	
3.	At what point does the student's method of learning lose its effectiveness?	
4.	Describe the student's organizational skills.	
5.	What behavior does the student demonstrate when attempting to recall information?	
6.	What is the student's response to corrective feedback?	
7.	How well does the student take tests?	
8.	Does the student's body language match his or her verbal expression?	
9.	Does the student express him or herself fluently?
